About Me

I am a highly motivated person interested in front-end development looking for an internship or a job on a Junior level. Currently I am self-studying front-end development as I am willing to gain knowledge and develop professionally in the IT/Engineering industry. I have a work permit and free access to the Czech labor market.

Skills

- HTML and CSS
- JavaScript (basics)
- Git
- Teamwork
- Time Management
- Critical Thinking
- Creativity
